

## Klairmont Kollections Automotive Museum Educational Itinerary

**School name:**

**Contact Name:**

**Email:**

**Cell Phone:**

**Date:**

**Length of Visit:** 2.5 hours including 20-to-30-minute lunch at conclusion of the tour

**Arrival:** The school bus arrival is immediately in the Klairmont Parking Lot. The Bus can pull up to the main entrance. The students and bus are greeted by the staff and ushered into the Museum.

**Orientation:** The docents, parent volunteers, KK staff, and school educators will remain and accompany the students throughout the tour. A brief history of the museum and a quick outline will be provided verbally to the group at large by the KK representative in the "Welcome to Klairmont Greeting".

**Overview:** The tour will begin on the first floor in a linear fashion and exhibits/automobiles will be highlighted in each room. The students may be given a Q&A sheet that they can answer as the tour progresses. The students will thereby be given several minutes to look at all the exhibits in that specific area and will be summoned back to the center aisle by the sounding of a car horn.

The group will proceed and in specific areas, the KK staff may exhibit a demonstration that enhances the tour experience. The tour will move from room to room in a concerted way with each area having its own special significance. The educational experience is balanced and entertaining. Information will periodically be shared with the group on how they can pursue their own future interest or participation in automotive and specifically KK events.

At the end of the tour the group will head to the Eagle Room event Space for lunch. A video can be played while the students dine. The bus can pick the students up immediately outside the Eagle Room.
